Swap a hiding spot

Each clue describes where the NEXT card is hidden. So to move a card, you change the clue on the card before it.

Example: you have no clock. Card 7 is hidden next to a clock, because clue 6 describes the clock. Choose a new spot, such as under the kitchen table. Take a blank card, write "Clue 6" and a new hint about the table, and use it instead of the printed clue 6. Then hide card 7 under the kitchen table.

Reader list

Write one name per line. Reader 1 reads clue 1, reader 2 reads clue 2, and so on. Fewer than 12 kids? Start again from the top.
